

# HIGH PERFORMANCE TRANSITORY CORROSION PROTECTION

## XCP INDUSTRIAL RB 120

### PRODUCT DESCRIPTION:

XCP INDUSTRIAL RB 120 is a high performance, de-aromatised solvent deposited corrosion preventative that leaves a self levelling, non-drip, grease like protective film, providing medium to long term corrosion protection for ferrous and non-ferrous metals. VOC Free, non-flammable liquid.

### FEATURES:

- High performance rust protection.
- Medium to long term protection levels.
- Non-flammable and low odour.
- No heavy metal content (e.g. Barium, etc.)
- Self levelling film
- Non-drip application and finish

### APPLICATION & REMOVAL:

XCP RB 120 is designed to provide high quality removable thin film corrosion protection. Effective medium to long term corrosion and rust protection for industrial environments, e.g. immediate storage and/or transportation. With its non-drip, and self leveling surface finish, preferred application methods are brushing and wiping. Dipping application is also possible. If spraying, check nozzle compatibility first.

### TYPICAL CHARACTERISTICS:

Product Name	XCP RB 120
Protection Level	Medium to Long term (*)
Water Displacing	No
Flashpoint	> 250° C
Film Thickness	≤ 25 μ
Film Type	Clear, grease like film
Drying Time	Non-drying
Odour	Characteristic
Liquid Appearance	Slightly hazy, amber liquid
Density Approx	approx. 1.03 g/cm <sup>3</sup>
Coverage	Application dependent

(\*) (\*\*) Protection levels, drying times and consequent product selection depend on environmental conditions. Please discuss your requirements to ensure the most appropriate product selection.

### HANDLING & STORAGE:

Compatibility testing is recommended prior to use for all non-metal surfaces. Do not store in strong direct sunlight. Container should be kept closed. All users should consult the application notes and Material Safety Data Sheet (MSDS) before using this product which is available from your XCP supplier or at [www.xcp-protection.com](http://www.xcp-protection.com).

### BESPOKE PRODUCT DEVELOPMENT:

If the products in our existing ranges do not meet your requirements, we can offer a bespoke product development service that will ensure the product matches exactly what you are looking for.
